PROFILE

Master's student in Web & Data Science at Universität Koblenz (started October 2025), currently seeking a **Werkstudent Software Engineer** position (part-time, max. 20 hours/week). With **over 3 years** of professional full-stack development experience, I have built and scaled production web applications using **React, Next.js, TypeScript, Node.js and PostgreSQL** that serve **25K+ monthly users**. I have also designed and integrated **generative AI** features into live systems.

German work permit holder, immediately available, and open to both **remote and on-site** opportunities while completing my Master's degree.

EDUCATION

- **University of Koblenz** Koblenz, Germany
Master's in Web and Data Science *10.2025 – Present (Expected 2027)*
- **University of Mumbai** Mumbai, India
Bachelor of Computer Engineering - 7.5 CGPA *2017 – 2021*

TECH SKILLS

- **Languages:** JavaScript, TypeScript, Python
- **Frontend:** React, Next.js, Tailwind CSS, Redux, HTML, CSS
- **Backend:** Node.js, Express, FastAPI, Django, REST APIs
- **Databases:** PostgreSQL, MongoDB
- **DevOps:** Docker, CI/CD, Azure, Git, Linux
- **Practices:** Caching, Scalability, Agile/Scrum

EXPERIENCE

- **Assesshub** Mumbai, India
Software Developer *07.2022 – 08.2025*
 - **Team Leadership & Delivery:** Led a team of 2–4 developers to design and deliver 3+ scalable full-stack applications, owning end-to-end development from architecture to deployment
 - **Full-Stack Development:** Developed and scaled web applications using React, Next.js, Node.js, and TypeScript, serving 25K+ monthly active users
 - **API Development:** Designed and implemented RESTful APIs using Node.js and Express, improving backend performance and system reliability
 - **Database Engineering:** Architected and managed PostgreSQL and MongoDB databases handling 1M+ records, optimizing queries and indexing for performance
 - **Production Systems:** Maintained and monitored production infrastructure, ensuring 99.9% uptime through debugging, logging, and deployment best practices
 - **Scalability & Performance:** Improved system scalability by implementing caching strategies and efficient API design to support thousands of concurrent users
 - **Generative AI Integration:** Integrated generative AI features into production applications to enhance automation and user experience
 - **AI Platform Development:** Built an AI-powered interview platform using Next.js and TypeScript for dynamic question generation and evaluation

- **Futurekraft** Mumbai, India
Software Developer Intern 10.2020 – 12.2020
 - **Admin Portal:** Developed a full-featured admin portal using Django and PostgreSQL to streamline business operations and data management
 - **Full-Stack Development:** Built and deployed a complete web application from design to production using Django, HTML/CSS, and Heroku
 - **Backend Design:** Designed backend logic and database schemas for scalable and maintainable application architecture
- **Indian Register of Shipping** Mumbai, India
Summer Intern 06.2019 – 07.2019
 - **Mobile App Development:** Contributed to development of a cross-platform mobile application using Angular and Ionic
 - **Codebase Modernization:** Upgraded legacy codebase to Ionic 4 and Angular 7, improving performance and maintainability
 - **Collaboration:** Worked with senior developers to debug issues and enhance application stability

PROJECTS

- **Expression Recognition-Based Music Recommendation System:** Developed an Android application using Flutter integrating CNN-based facial expression recognition. Implemented real-time emotion detection using computer vision techniques and designed a recommendation system to suggest music based on detected mood. Optimized model performance for mobile deployment balancing accuracy and latency. github.com/ManishC31/flutter_fer

PUBLICATIONS

- **Facial Expression Recognition on Mobile Devices:** International Research Journal of Engineering and Technology (IRJET), 2021. Research on facial expression recognition using CNNs and ResNet; optimized for mobile deployment balancing accuracy and efficiency.

LANGUAGES

- **English:** C1 (proficient – Listening, Reading, Writing, Spoken Production & Interaction)
- **German:** A1 (basic – actively improving through university life in Koblenz)
- **Mother Tongue:** Marathi
