ABOUT ME

I'm a **full-stack developer with 3+ years of experience** working with React, Next.js, TypeScript, Node.js and PostgreSQL. I've built scalable systems, deployed AI-powered features and handled products end-to-end. I'm currently pursuing a Master's in **Web and Data Science** at the University of Koblenz. **My work and projects are available at www.manishchavan.in.**

WORK EXPERIENCE

 **ASSESSHUB** – MUMBAI, INDIA

SOFTWARE DEVELOPER – 16/07/2022 – 31/08/2025

- Led a 2–4 member IT team and owned end-to-end delivery of 3+ scalable full-stack applications.
- Built and optimised frontend and backend systems that served 15K+ monthly users using **React and Nodejs**.
- Designed and managed **PostgreSQL and MongoDB** databases handling 1M+ records with high availability and performance.
- Maintained and monitored production infrastructure independently, achieving 99.9%+ uptime with proactive alerting and incident response.
- Scaled applications to support thousands of users through efficient API design, caching and deployment pipelines.
- Developed and integrated generative AI features into production systems, improving product capabilities.
- Built a scalable AI-powered interview application using **Next.js and TypeScript**, supporting 100+ concurrent sessions in peak hours.
- Worked closely with stakeholders to gather feedback and iterate quickly with a strong ownership mindset.
- **Tech Stack:** Javascript, Typescript, React, Next.js, FastAPI, Node.js, PostgreSQL, MongoDB, Docker, Azure, Bitbucket.

 **FUTUREKRAFT** – MUMBAI, INDIA

SOFTWARE DEVELOPER INTERN – 10/2020 – 12/2020

- Developed full admin portal using Django and PostgreSQL for business operations.
- Handled complete website development, from design to deployment on Heroku.
- **Tech Stack:** Python, Django, PostgreSQL, HTML, CSS, JavaScript, and Heroku.

 **INDIAN REGISTER OF SHIPPING** – MUMBAI, INDIA

SUMMER INTERN – 06/2019 – 07/2019

- Contributed to IRClass Maritime cross-platform mobile app built with Angular and Ionic.
- Upgraded the codebase to Ionic 4 and Angular 7, improving performance and maintainability.
- Implemented new features and UX enhancements to optimize usability.
- **Tech stack:** Angular, Ionic, HTML, CSS.

SKILLS

JavaScript | TypeScript | Python (computer programming) | Reactjs/Redux | Nodejs (Expressjs) | Python FastAPI | PostgreSQL | MongoDB | Version Control (Git) | Docker Container Architecture | Generative AI | CSS & HTML | work as a team | JIRA, Application Lifecycle Management

EDUCATION AND TRAINING

01/10/2025 – CURRENT

MASTER'S IN WEB & DATA SCIENCE University of Koblenz

Final grade 7.5 CGPA

PROJECTS

Expression Recognition-Based Music Recommendation System

Responsible for creating android application for the recognition of current mood of the user based on the photo using Flutter and suggest songs based on the mood of the user from the music library.

PUBLICATIONS

2021

"Facial Expression Recognition on Mobile Devices" – International Research Journal of Engineering and Technology (IRJET)

- Conducted research on **facial expression recognition** using **Deep Learning** techniques such as **CNNs and ResNet**.
- Focused on optimizing model performance for deployment on **mobile devices**, balancing **accuracy and efficiency**.
- Analyzed various architectures to determine the most suitable approach for real-time **emotion detection** and **music recommendation**.

FER-M: Facial Expression Recognition on Mobile Devices

LANGUAGE SKILLS

Mother tongue(s): **MARATHI**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	C1	C1	C1
GERMAN	A1	A1	A1	A1	A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user
